

# ACTIVELY COMBAT CHRONIC HEEL AND ANKLE PAIN

BAUERFEIND.COM

## THE NEW TRlactive® heel RELIEVES THE HEEL WITH POWERWAVE TECHNOLOGY

The new TRlactive heel foot orthosis cushions the heel to relieve pain or heel spurs. Its active principle is based on the vertical arrangement of materials of varying firmness and their non-irritating corrections (PowerWave technology). A Poron pad is also integrated in the distinctive yellow zone to give the heel an extra dose of soft cushioning.

Active with Bauerfeind.
